FORGING STRENGTH

PRECISION FORGING & METAL MANUFACTURING IN INDIA

Indigenous engineering and precision manufacturing solutions for demanding applications.

CORPORATE CATALOGUE | 2026

Forging Trust. Delivering Excellence.

Sun Inox Metal Forge Pvt. Ltd. is an Indian forging company committed to delivering high-quality, precision-engineered forged components for critical industries.

With over 30+ years of forging engineering and project execution experience, our team combines expertise, innovative technology and a customer-first approach to deliver reliable and cost-effective forging solutions.

We proudly support India's Make in India and Atmanirbhar Bharat initiatives through indigenous engineering and sustainable manufacturing.

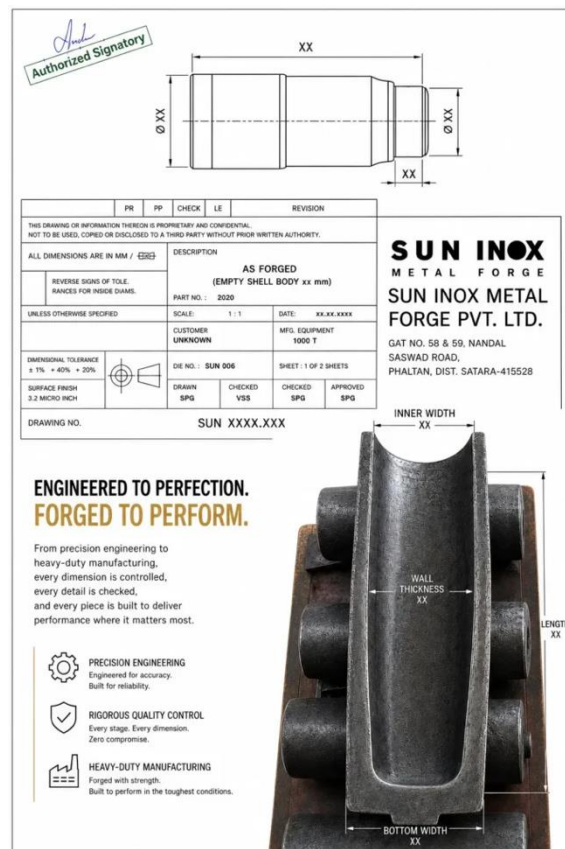

MAKE IN INDIA

Supporting Make in India and Atmanirbhar Bharat through indigenous engineering and sustainable manufacturing.

Advanced technology. Superior results.

Engineering capability shaped around controlled processes, in-house development and strict material discipline.

01

HOT FORGING

High strength, close tolerance components.

02

OPEN & CLOSED DIE

Versatile solutions for complex geometries.

03

PROCESS DEVELOPMENT

Optimized processes for quality and efficiency.

04

TOOL & DIE DEVELOPMENT

In-house design and development.

05

HEAT TREATMENT

Controlled processes for superior properties.

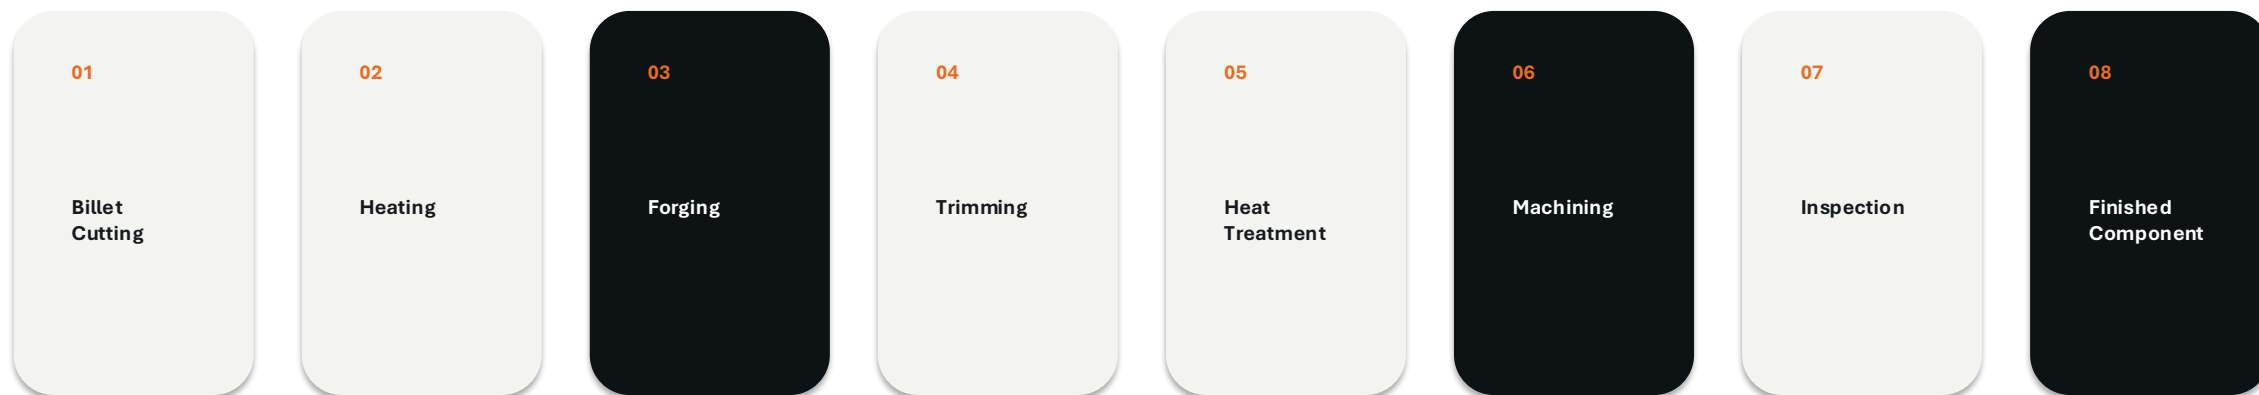

06

METALLURGY & MATERIAL CONTROL

Material expertise and strict quality control.

From concept to component. With precision.

End-to-end manufacturing under one roof, supported by engineering discipline, skilled experts and controlled verification.

Committed to zero compromise.

We follow stringent quality practices and rigorous verification at critical stages to support performance, safety and customer satisfaction.

01 MATERIAL TRACEABILITY

02 DIMENSIONAL INSPECTION

03 METALLURGICAL TESTING

04 CUSTOMER-SPECIFIC QUALITY

Quality planning aligned with customer requirements.

Precision-engineered forged shells for demanding applications.

Product categories supplied in the Sun Inox company catalogue, presented through controlled forging and quality-focused manufacturing. Our range continues to expand with new calibre solutions.

Engineering for critical sectors.

Precision components and controlled manufacturing for industries where strength, reliability and repeatability matter.

01

DEFENCE

Strategic forgings and precision manufacturing for demanding defence applications.

02

AEROSPACE

Engineering discipline for high-reliability aerospace requirements.

03

INDUSTRIAL EQUIPMENT

Forged and machined solutions for industrial engineering applications.

Your partner in progress.

01

30+ YEARS OF EXPERIENCE

Deep expertise in forging engineering and execution.

02

INDIGENOUS ENGINEERING

Designed and developed in India.

03

COMPETITIVE CAPITAL COST

Optimized solutions for better ROI.

04

EXPERIENCED TECHNICAL TEAM

Skilled professionals with a proven track record.

05

FLEXIBLE & CUSTOMER ORIENTED

Custom solutions with timely delivery.

06

QUALITY, RELIABILITY & TRUST

Our commitment, always.

Building capability for the future.

6,000+

Trees developed around the plant environment.

A green manufacturing environment reflecting Sun Inox's commitment to responsible industrial growth.

CEO SPEAK | योग: कर्मसु कौशलम्

Engineering Excellence • Spiritual Values • Living in Harmony with Nature
At Suninox, we believe that engineering is not merely about manufacturing products—it is about creating with knowledge, precision, responsibility and purpose.

Our guiding thought, “Yogah Karmasu Kaushalam — Excellence in Action,” inspires us to combine modern engineering with timeless Indian values.

We specialise in advanced metal forging and precision manufacturing, developing high-quality components for defence and strategic applications, while continuously striving for better technology, quality and efficiency.

But our responsibility goes beyond the factory floor.

We have planted 6,000+ native trees, practise water harvesting, created clean drinking-water spots for roadside cows, and provide shelter and care for cows, dogs and owls. In our farms, not a single grain of chemical fertiliser has been used.

The Bhagavad Gita reminds us:

विद्याविनयसम्पन्ने ब्राह्मणे गवि हस्तिनि ।

शुनि चैव श्वपाके च पण्डिताः समदर्शिनः ॥

The wise see the same divine presence in all forms of life.

This is the philosophy we aspire to bring into Suninox — science in our processes, engineering in our solutions, sustainability in our actions and compassion in our way of life.

We do not merely manufacture in nature.

We believe we dwell in nature and must grow with it.

योग: कर्मसु कौशलम्

Excellence in what we create.

Responsibility in how we live.

Sunil Gavali
